

# WARRANTY REPLACEMENT REQUEST FORM

**STEP 1: COMPLETE THIS WARRANTY REPLACEMENT REQUEST FORM**—If you have a defective PSC steering component and are requesting a replacement before the defective component is returned, this form must be completed in full and sent via email to [service@pscmotorsports.com](mailto:service@pscmotorsports.com) before any replacement part will be shipped. Once this form is received and completed in its entirety, the replacement part will be processed. For questions, please call (817) 270-0102x3.

Please review PSC's warranty policy first and call/email if there are any questions. Warranties do NOT cover: 1) Any component used in competition, 2) Damaged steering cylinders (bent rods), 3) Any part damaged due to collision or accident.

All Eaton/Charlynn steering valves are warranted and serviced through Eaton Corporation. Expect several weeks to have these items processed. PSC can bench test these items to see if they are operating properly, but CANNOT service them.

**STEP 2: REPACK MERCHANDISE**—If at all possible, return the item in its original shipping package. Always remove all fluids and seal it well to keep fluids from leaking through the package. If the package is fluid-soaked, it will probably not make it back to us. Package it tightly—heavy items tend to work their way through packaging.

Make sure a copy of this form is return with the package. If parts are not returned within 30 days from the time the replacement part is shipped, the method of payment provided will be charged.

PSC is not responsible for the prepaid shipping costs. Ship warranty items to: **PSC Motorsports  
400 Church Rd, Azle, TX 76020**
